<b>PART I: The Trophoblast as Metaphor for Cancer</b>	<b>1</b>
<i>Introduction to Part I</i>	3
Chapter 1: Trophoblast Implantation—an Overview	5
Chapter 2: The Molecular Biology of the Trophoblast	27
Chapter 3: Trophoblast Invasion, Migration, and Angiogenesis	35
Chapter 4: The Trophoblast <i>Is</i> Cancer	53
Chapter 5: Germ Cells and Stem Cells: Proof for Dr. Beard?	69
<i>Conclusion to Part I</i>	91
<b>PART II: The History of the Enzyme Treatment of Cancer</b>	<b>93</b>
<i>Introduction to Part II</i>	95
Chapter 6: From Fish to Trophoblast	99
Chapter 7: The Trophoblast and the Pancreas	111
Chapter 8: Pancreatic Enzymes During Fetal Life	117
Chapter 9: The Evolution of Enzyme Treatment	123

Chapter 10: Oral Versus Injectable Preparations	139
Chapter 11: The Stability of Oral Enzyme Preparations	149
Chapter 12: Active Enzyme Versus Precursor: Which Works Best Against Cancer?	155
<i>Conclusion to Part II</i>	161
Appendix 1: My Review of Kelley ( <i>By Dr. Gonzalez</i> )	163
Appendix 2: Four Kelley Patients ( <i>By Dr. Gonzalez</i> )	167
Appendix 3: Our Recent Practice Experience with Enzyme Therapy ( <i>By Dr. Gonzalez</i> )	177
Appendix 4: Eight Cases from Our Files ( <i>By Dr. Gonzalez</i> )	183
